

AD/HD Support Group Speaker

Dr. Susan Burnett

“Answers to the Special Ed Jigsaw Puzzle”

- What is IDEA?
- How does a student qualify for *special* services in education?
- Are you having trouble *qualifying* your child for Special Education?
- How do you obtain an Individual Education Plan (IEP) for your child?
- What is the difference between a 504 and an IEP?
- Do you need a *better* IEP for your child?
- Are *reasonable* services, accommodations or modifications for your child being denied?

For answers to these questions and information on how to **ADVOCATE** for your child, you don't want to miss as Dr. Susan Burnett shares information on the Special Education jigsaw puzzle. She will help put the pieces of the puzzle together as she shares much needed information parents can use before the assessment process begins, or help parents sort things out for an IEP that may not be working. Either way, Dr. Burnett's presentation will empower parents to determine and get the services that their children so well deserve.

Susan Burnett, Ph.D., holds a masters degree in Marriage and Family Counseling and a doctorate in Clinical Psychology. Dr. Burnett works with parents to help get durable educational services for their children who have physical, emotional, behavioral, developmental delays and/or learning disabilities. She assists parents and caregivers in finding help for the child with special needs as it relates to receiving an appropriate education under IDEA. Dr. Burnett has extensive knowledge and expertise in the interpretation of psycho educational evaluations for determining individual educational needs to maximize a student with challenges learning potential under federal and state special education laws.
